## CZAR CALLS ANOTHER PEACE CONFERENCE

It Will Be Another Hague Tribunal—Details Not Issued.

Negotiations Entered Into with the  
United States With Great  
Secrecy.

### INTERNATIONAL INTEREST FELT

St. Petersburg, Sept. 19.—Emperor Nicholas yesterday again appears before the world as a promoter of universal peace. No sooner is the Russo-Japanese war over and even before the peace treaty has been ratified than his majesty issues invitations to a second peace conference at The Hague.

That the emperor has done so was learned from a source which leaves no shadow of doubt as to its authenticity.

It is officially announced that "the Russian government proposed to address the foreign powers with a view to the holding of a peace conference at The Hague," but it is known that negotiations preceding this announcement that the government proposed to address the powers were entered into especially with the United States, and were conducted with the greatest secrecy, there being not the slightest intimation that Russia contemplated anything of the kind.

The announcement created the greatest surprise here and the fact that Russia had planned a second conference despite the steps already taken by President Roosevelt was also heard with amazement. It is clear that the step could not be taken by Russia without first reaching a complete understanding with President Roosevelt.

There is strong reason to believe that the news even of the intervention of the Russian government would not be given out unless invitations had already been sent to the powers and possibly that their answers had been received.

In this connection an interesting question arises as to how the invitation was communicated to Japan in view of the lack of diplomatic relations, but the invitation may be delayed until such relations have been resumed or it may have been forwarded through the United States.

It was impossible to learn tonight the proposed date of the second conference or to gain even an approximate idea regarding it; but it probably will not be greatly delayed. Russia, as the power convoking the conference, will probably submit an official program, the other powers submitting to the program.

### WHITE IN PARIS.

Paris, Sept. 19.—Apparently much fatigued by his journey, M. White, the Russian envoy to the Portsmouth peace conference, arrived in Paris this morning. There was no formal reception. White will probably be received by President Loubet and then proceed to St. Petersburg.

### They Demand Protection.

St. Petersburg, Sept. 19.—Advice from Baku say that the Naptha producers of that region have decided to postpone a resumption of operations after the disturbances which made it necessary to abandon work, until the government gives them protection. While the situation is improved, rioting still prevails.

### TWO INSPECTORS

Have Been Removed For Smuggling  
Chinese Into This Country.

Washington, D. C., Sept. 19.—The department of commerce and labor has issued an order removing Edward Hultz and Charles Stevenson, Chinese inspectors in the immigration service, who are charged with assisting in smuggling four Chinamen into the United States at Buffalo, and swearing falsely at the hearing of these same Chinamen.

### Library Board Meets Thursday.

Attorney E. W. Bagley, president of the Carnegie library board, stated this afternoon that he would call a meeting of the board for Thursday night for the purpose of allowing accounts, salaries, making out a book list and possibly to elect a janitor. The position of janitor at the building is sought after by many and the applications are numerous.

Killed Gen. Custer.

Rain-in-the-Face was celebrated by Longfellow in his poem on the Custer massacre which begins: "Revenge!" cried Rain-in-the-Face "Revenge upon all the race Of the White Chief with the Yellow Hair."

### I. C. EXTENSION.

a Small Line.

Jackson, Tenn., Sept. 19.—A charter has been filed in the County Register's office, for the Jackson and Southern railroad, and is for the purpose of constructing a line between Frogmore, the south yard of the I. C. road, and the M. and O. road at Perry's Switch. The capital stock is \$10,000, and the incorporators are all local I. C. employees, including Attorney C. G. Bond. This is the line the I. C. is building to make connection over the M. and O. tracks at Corinth for the proposed Birmingham branch.

## WILL RECOVER

BELIEVED NOW THAT THERE IS  
SOME CHANCE FOR MAY-  
FIELD LAWYER.

The Elks Are Seeing That Every-  
thing Possible Is Being Done  
For Him.

Reports from Mayfield this afternoon state that the indications are that Attorney Robert Poynter, who yesterday shot himself, would in all probability recover. It is now believed that he stands a good chance of recovering from the loss of a position and over financial matters caused his trouble.

Poynter was found yesterday shortly after the wounds had been inflicted lying on a couch where he had evidently been lying down during the night. Press Dawson, the colored janitor of the building was the first to hear the shots and he immediately gave the alarm. Mr. Will Cook, who was passing at the time, rushed up together with Joe Hatfield to find the young man lying gasping for breath and blood flowing profusely from two wounds, one being over the right eye and the other over the left nipple. He was conscious but on being asked at that time why he had shot himself refused to reveal the reason but later he told Mr. L. A. Chandler, of the Mirror, where Poynter recently worked, that it was due to despondency caused by being without a position, money and was so overcome with indecision that he could not see his way out.

### COLUMBUS WON.

Kansas City, Mo., Sept. 19.—With the close of the season, Columbus captured the American Association pennant for 1905 with easy stride. It has developed that four negroes were wounded by Martin's reckless shooting. One negro was shot through the nose, two in the arm and one in the leg.

### MORE TROUBLE

Between France and Germany Over  
Morocco Dispute.

Paris, Sept. 19.—It is rumored another crisis has arisen in the negotiations between France and Germany relative to a Moroccan conference. It is said this has resulted in a suspension of the meeting of the plenipotentiaries of the two countries.

## DEATHS YESTERDAY NOT NUMEROUS

There Was an Increase Noted  
in New Cases, However.

President Roosevelt Telegraphs His  
Sympathy to the South's  
Troubles.

### THE LATEST OF TODAY'S NEWS.

Today's Fever Report.  
New Orleans, Sept. 19.—Twelve new cases and two deaths were reported to noon today.

Report to 6 p. m. yesterday:  
New cases, 34.  
Total to date, 2,605.  
Deaths, 6.  
Total to date, 341.  
New fuel, 9.  
Cases under treatment, 311.  
Discharged, 1,932.

### Situation Not So Good.

New Orleans, Sept. 19.—The expectation of the usual increase in cases and deaths on Monday over Sunday was again realized yesterday.

The deaths though comparatively few in number, exceed those for several days past. The spell of good weather which has prevailed for several days was broken by frequent showers and as the rain is helpful to mosquito breeding, the sanitary workers will have their labors considerably added to.

### Cairo's Latest Antics.

Cairo, Ill., Sept. 19.—The mooted question of what to do with the banann messengers was settled today at a conference between Superintendent E. J. Middleton and Assistant Superintendent Paul Marie, of the Fruit Dispatch company, and Assistant Secretary George T. Palmer of the Illinois state board of health.

The agreement reached was that no banana messengers from south of Jackson, Tenn., should run into Illinois; that messengers from Jackson should have their certificates stamped every six hours when they remain in Jackson, and should also have them stamped at Mounds. In this way their whereabouts can be definitely ascertained.

### The President's Telegram.

New Orleans, Sept. 19.—President Roosevelt's telegram to Mayor Behrman announcing his intention to come here as planned on October 24, if the people of Louisiana desired him to do so, subject only to the quarantine regulations of other states, is received as an additional indication of the President's sympathy with the people of the state and city in their fight against the fever.

There is no doubt of the widespread desire here to reciprocate the President's assistance, but Mayor Behrman will be unable to make reply until he has considered the whole subject of yellow fever quarantines with the local committee in charge of reception of the President and with Governor Blanchard, who is representing the state in the matter. Dr. White, who is in charge of the fight here in behalf of the government, will, no doubt, be consulted. It is the opinion of the authorities that the fever will have died, but before the President is expected, but there is some doubt as to whether the adjoining states and the country parishes of Louisiana will be willing to lift the quarantines that have been imposed until frost gives assurance that there is no further danger of the transmission of the disease.

### TWO MILLION

Will Be the Loss in Missouri From  
Present Indications.

St. Louis, Sept. 19.—Although reports from various sections of Missouri indicate comparative improvement, the flood situation is grave, and a great deal more property is likely to be destroyed before the waters recede.

Rain continues to fall in many sections of the Missouri Valley, and many important towns have been without mail over fifty hours. The loss to the farmers of Missouri is now estimated at two millions.

### Four Inches in 24 Hours.

Sioux City, Ia., Sept. 19.—All the records for rainfall at the weather bureau here have been broken in the past 24 hours, nearly four inches of water having fallen.

### Big Fire at Toronto.

Toronto, Sept. 19.—Fire today destroyed the Brown Flouring mills. One fireman was killed by falling walls and three seriously injured. The loss is \$150,000.

### WESTERN NATIONAL

Will Probably Open Again Early in  
October.

Washington, Sept. 19.—At the controller's office it was announced that the Western National bank, of Louisville, probably will resume business early in October, all embarrassing obstacles to resumption having been cleared away.

The following formal statement was given out for publication:

"Mr. T. L. Jefferson, late president of the Western National bank, of Louisville, with Mr. John B. Baskin, his attorney, and Mr. Thomas M. Thornton, receiver of the Western National bank, of Louisville, today presented to the controller of the currency their plan for the rehabilitation of that bank.

"After careful investigation, the controller found that an assessment of eighty-three and one-third per cent. on the share-holders would completely restore the capital of the bank and stated that when the sum of \$250,000 is paid to the receiver for a purpose the bank will be permitted to resume business.

"It is confidently expected that the money will be paid and the bank re-opened in its new banking house, corner of Market and Third streets, about the first of October."

### DIDN'T HAVE PERMITS.

But the Couple Got Into Cairo and  
Married Just the Same.

Cairo, Ill., Sept. 19.—A quarantine wedding occurred here at 6 o'clock last evening when Everett L. Hooker of McClure and Frances V. Phillips of Delta this county, were married by Judge Wm. S. Dewey. The young folks, both of whom are minors, came down with their parents on Bryan's train, but failed to secure permits to enter Cairo.

They were rescued from the detention cell by Assistant Secretary Palmer, of the state board of health, when he learned their mission, and that officer personally accompanied them to the courthouse as best man. Falling to find Judge Dewey there, they were married in the waiting room at the station while Conductor Bryan held his train for them.

Had the groom been five days younger he could not have been married in Illinois.

## THE GRAND JURORS MUST GET A MOVE ON

Judge Reed Administers a Mild  
Reprimand to Them.

A Big Batch of Indictments Turned  
In Late Yesterday and Today,  
As a Result.

### AND OTHERS ARE EXPECTED

One of the characteristics of Circuit Judge William M. Reed is his dispatch in conducting court, and the grand jury has not been keeping pace with him. Yesterday he grew tired of slowness of the grand jury in dealing with the jail cases, and administered a mild reprimand. This seemed to have had some effect on that body as several indictments were returned this morning, as a result, there was "plenty doing" in circuit court.

Yesterday afternoon the grand jury returned the following indictments:

One against Alonzo Pollard for maliciously cutting Marion Lucas on June 6.

One against Augustus Green for stealing \$55 from Alice Payne on May 30.

One against Marion Williams, for robbing John Harris of \$7 on June 17th.

One against John Duffey for stealing \$3 from a room in the New Richmond hotel on August 22.

One against Riley Cromley for swearing falsely in the case against Katie Powell, for breach of the peace, in police court.

One against John Collins and Jas. Tally for stealing shirts from the porters' quarters at the Palmer hotel.

This morning the grand jury returned six more indictments, three of which were given out for publication, the other three defendants not being in custody.

The indictments:

One against Will Futrell, alias "Smookey," for robbing George Chandler of \$20 several weeks ago.

One against Alex Fitzgerald for stealing a watch from J. H. Cross.

One against Alex Fitzgerald for stealing a watch from R. A. Adams on June 10.

One against Edward Pankey for maliciously cutting Ed Smith Labor day.

It is not known what is going to be done about the Loving case. The prosecuting attorney and county attorney do not appear to know much about it. In regard to Loving going before the grand jury, Commonwealth's Attorney Lovett said today that there was nothing to it, although Loving wants to go before the grand jury and testify in his own case. A defendant never goes before the grand jury, all indictments being found on the commonwealth's evidence.

One of the attorneys for the prosecution stated today that an indictment would be returned tomorrow morning against Mr. Loving for murder in the first degree.

### AMERICAN WARSHIP

Paris, Sept. 19.—Minister of Marine Thompson telegraphed the authorities at Villefranche to allow the American warship Minneapolis to occupy the anchorage always reserved exclusively for the flagship of the French Mediterranean squadron. This is the first time the exception was ever made for a foreign vessel to occupy the anchorage.

County Farmers at Mayfield.

He urged the tobacco growers to assign their crops to the organization and stand by it if they expect to win against the trusts. It was one of the largest crowds and the most representative number of farmers ever assembled in Mayfield. Mr. James' speech had great effect, and was indeed a masterly effort. The meeting was the most enthusiastic ever held here.

### FULTON SCHOOLS.

Close on Account of Scarlet Fever  
Cases.

Fulton, Ky., Sept. 19.—The public schools of Fulton were dismissed yesterday for an indefinite period on account of scarlet fever. There are but two cases in the city at present, and this step is taken to prevent the spreading of the disease. Last year schools were dismissed for nearly a month and many of the pupils had the fever. The disease will be speedily stamped out and the schools re-opened probably by the first of next week.

## ELEVATOR FELL

IT WENT ONE STORY AND TO  
THE CELLAR IN ITS DROOP.

Mr. A. L. Noe, of Louisville, and the  
Elevator Boy Have Fright, But  
Escape Injury.

The elevator at the Palmer house fell one story and a half this afternoon about 12:20 o'clock with Mr. Alphonso L. Noe, of Louisville, and the elevator boy, Henry Lawrence, inside, but both escaped injury.

The boy attempted to stop it at the second floor, but instead of obeying the regulator, the car began sliding and when it got even with the first floor took a sudden tumble to the cellar, making a loud noise, as it struck and broke much of the glass inside.

Mr. Noe, who is state agent for the Mutual Life Assurance Co. of Massachusetts, got out as soon as he could, and found that he was uninjured, but he says he saw many visions during his brief tumble.

The cause of the accident was a broken cable, and the elevator will be running again before night.

### A New Labor Question.

Chicago, Sept. 19.—If a union tells a contractor that its men will not work with a non-union man, and if as a result the non-union man, is discharged and is unable to secure employment on account of attitude of the unions towards him, the union is not liable for damages to the non-union man.

This is the substance of the decision rendered here yesterday in the superior court by Judge Gary, when instructing a jury to find a verdict of not guilty in favor of the local No. 147, Brotherhood of Painters, which organization had been sued by John P. Burgh, a non-union man, for \$35,000 damages.

At noon the officers at Central Station were notified that he was seriously ill from a fall. Investigation found Titus in a stupor, and he was hurried to a hospital, where he died at 8:30. All the prisoners were put through the sweat box, each stating that Titus had deliberately butted his head against a steam heater repeatedly, and he suddenly fell unconscious.

### GOOD WORK

Is Being Done By Commercial Club  
Soliciting Committee.

The committee from the Commercial club which is soliciting subscriptions to the metal wheel factory the club is desirous of locating in Paducah was out for a little while today and sold 27 bonds. They want to dispose of 100 and anticipate no trouble in doing so. In investigating the proposition, the Commercial club found that all vehicle manufacturers agree that the metal wheel is the coming wheel, as timber is being rapidly used up in every lumber district, and a substitute for wood has to be found somewhere. The patent the people own who are desirous of establishing this plant in the city is conceded to be one of the best on the market, and the owners think it is destined to be a big thing.

The Fiske Stock Company, which  
comes to the Kentucky tomorrow  
night and remainder of the week  
with matinee Saturday, offers some-  
thing new in the moving picture show  
and their vaudeville act of "La Pro-  
tea," the only feature of its kind in  
the world, has created quite a sensa-  
tion all over the country. Mr. Stock  
has spent \$10,000 and several years  
of hard work in putting this act to-  
gether.

One of the main features of the  
moving pictures will be the local pic-  
tures taken here several weeks ago  
of the Labor Day parade, matinees  
at the Kentucky on Labor Day and  
the Dress Parade and several scenes  
at Camp Yeiser. So if you are in the

moving picture machine. Each per-  
son will be easily recognized.

## CARNEGIE'S EPIGRAPH

He Has Already Picked It Out, It Is  
Said.

Pittsburg, Pa., Sept. 18.—"That  
damned white of Andy." This is to  
be the epitaph carved in Andrew Car-  
negie's tomb. The Scotchman de-  
clares in all seriousness that it ex-  
presses a sentiment he likes, and he  
will insist on his wishes being carried  
out. "And I want the adjective writ-  
ten in full," said Mr. Carnegie. "I  
want no damned with a dash in it.  
Every letter must be there."

As related today by a prominent  
resident of Pittsburg, an intimate  
friend of Mr. Carnegie's, the story  
touches John McLaughlin, who was bur-  
gess of Homestead during the big  
steel strike of 1892. McLaughlin went

to Texas and had a hard struggle for  
a livelihood. Prof. Van Dyke, of  
Rutgers College, met him there and  
reported his condition to Carnegie,  
who asked that he be given anything  
he wanted. When McLaughlin heard  
this he uttered the expression which  
so impressed the ironmaster that he  
directed it be his epitaph.

manager of the Singer Sewing Ma-  
chine office here for a year or more,  
was today transferred to the office

pointment of such a worthy gentle-  
man shows the ever good judgment  
of the Singer officials. Mr. Headley  
will fill the position to a queen's  
taste.—Mayfield Messenger.

## COUNCIL STANDS PAT ON STREET QUESTION

The councilman board met last night in regular session and ordered the work of reconstructing Jefferson street and Kentucky avenue to proceed. It is the second time the board has taken such action, both times against the advice of the board of public works.

Councilman Rehkopf, in the discussion of the question, told how the city had allowed contractors to impose on her, etc.—which everyone knows and many have vainly complained of for years—and suggested that the blithely people be made an example of.

President Ed P. Noble, of the board of works, explained that the board recommended that the work be completed this year only to Fourth and Kentucky and Fifth and Jefferson. He said that he did not think the people wanted the streets torn up and possibly left that way for days at a time in cold or rainy weather by starting work during the autumn months, and that the work could not possibly, even under auspicious circumstances, be finished before cold weather, which would be a further hardship, as it would force the contractors to put down the blithely material in cold weather, when it could not be satisfactorily done, as demonstrated on Broadway. There are now many places on Broadway that will have to be repaired by the blithely contractors before the city accepts the street, all because the material was put down in cold weather.

All arguments with the council were vain, however, and it voted to proceed with the work regardless of consequences.

The board of works was authorized to proceed to abate the nuisance of Bradshaw's creek, which West End residents complain of as an "open sewer."

The street committee was authorized to go ahead and open up whatever streets are necessary from Caldwell street to the box factory, the city building a bill on the extension.

The railroad was authorized to unload cars of coal on Second street between Jackson and Ohio for the schools.

A complaint from the Anheuser-Busch company that it had been assessed \$1,000 on \$150 worth of property was referred.

The ordinance committee was instructed to prepare by the first of the

year a new ordinance regulating the position of sewerage inspectors.

The board of works was instructed to proceed with the concrete culvert on Caldwell street, near the I. C. depot where the bridge is reported unsafe.

A petition from the congregation of the First Baptist church asking for the ten year plan of paying for the blithely street to be halted on Jefferson, was referred.

A protest against the blithely material and storm water sewers on Jefferson street, from E. Fels, was filed.

The sale of city property by Mayor Yeiser at 14th and Clay streets to Col. John Sinner was ratified.

The question of having former Solicitor Ed Pryor prosecute suits against the bonds of the Anheuser-Busch Brewing Association for \$1,000 for selling beer on Sunday sometime ago, was referred to the Joint Finance committee. The present solicitor, James Campbell, Jr., is one of the beer company's attorneys, and the former solicitor offers to take charge of the case for \$100.

The ordinance extending the fire limits was ordered brought in.

The council declined to concur in the board of aldermen's action ordering the fountain at Third and Clark moved.

The regular bills and salaries were allowed.

The ordinance for curbs and gutters on Elizabeth street, between Third and Fourth was defeated owing to a remonstrance from some of the people.

The following ordinances were acted on:

Imposing the fee for using seal of the city without authority, second adoption. Ordinance for spur track for I. C. near Ninth and Harrison, first passage. Ordinance for grading and graveling 13th street from Broadway to Guthrie avenue, thence to the Mayfield road, referred back. Ordinance for ferry franchise, first passage.

The water company reported a number of extension of mains, and was ordered to extend mains from 12th and Hampton to Rowlandtown, and also on Guthrie avenue.

John Dye and Andy Stewart were granted a saloon license at 1501 S. Third.

Denius Long and Harrison Loving were granted a transfer of saloon license from South Tenth to Tenth and Husbands.

A request that \$25 overpaid license be refunded to Bradley Bros. was referred.

A contract was ordered made with James Clark to look after the city garbage dump for \$40 a month from April to October and for \$25 a month the remainder of the year.

Prayers for relief from over-assessment from Charles Hinkle, M. H. Bradley and J. R. Moore were referred.

Request for street lights at 12th and Salem avenue and near the colored church, in that vicinity were referred to the board of works.

The petition of butchers in regard to peddlars of meat having to have no inspection, and paying no license, was received and filed.

The I. C. was ordered to drain a low place near their tracks at Second and Monroe.

Councilman Kolb brought up the matter of the freak street and sidewalk on Second between Kentucky and Broadway. Part of the sidewalk is in steps, and is dangerous to pedestrians. The board of works was

requested to remedy it.

The deed of Mechanicsburg school property was ordered made out to the board of education.

Ordinances were ordered authorizing that Harrison street have pavements from Eighth to 13th streets, and that 11th be paved from Madison to Monroe.

The board adjourned.

**Mrs. M. L. Baird Dead.**

Louisville, Ky., Sept. 19.—Mrs. Maria L. Baird, widow of Thomas R. Baird, who until his death a few years ago was a prominent attorney at Hannibal, Mo., died in this city at the age of 81. Mrs. Baird was a native of this state. Besides several sons living here, and a son in Chicago, Thomas Bruce Baird, Mrs. Baird leaves one daughter, Mrs. William B. Wright, of Clarence, Mo.

**Tragic Suicide of a Mother.**

Richmond, Ky., Sept. 19.—Grief-stricken because her 6-year-old son, from whose father she had been a month separated, grew pale with fear at the sight of her and refused to come within her reach, Mrs. Laura Walker Chenault, one of the most prominent society women in the state, committed suicide by swallowing carbolic acid. Her death was one of the most tragic in the history of the county. About a month ago Mr. and Mrs. Chenault separated, the father taking the child, a boy only six years old. Mr. Chenault is a banker and has a country home four miles from the city. His wife telephoned that she would like to see the boy. Mr. Chenault brought the little fellow to the house where his wife was stopping. As soon as he caught sight of his mother, who was standing at a window, he positively refused to enter the house. No amount of persuasion could prevail upon him to do otherwise, and this so shocked the mother that she immediately retired to a bathroom, where she swallowed the poison. Mrs. Chenault's father, J. Stone Walker, was formerly president of the State bank and trust company. Both families are among the best known in the blue grass state.

**Agent Lucas Still Prosperous.**

Hopkinsville, Ky., Sept. 19.—In settlement with Sheriff Davis, Revenue Agent Frank A. Lucas, of Paducah, turned over to the county Saturday night the sum of \$258.03. The same amount was collected by him which goes to the state and which is sent to the auditor general. Mr. Lucas gets twenty per cent of the total amount, which is paid as a penalty for collection, and his fee on his work of Friday and Saturday therefore amounts to \$103.21, which he collected in cash. Besides this amount seven cases went by default, the defendants failing to defend the actions brought against them. This money is yet to be collected. Several suits were not disposed of and Mr. Lucas will return to Hopkinsville on October 2.

## DOING ONE'S DUTY.

There is a great deal of difference between the "fearless" official who merely demonstrates his prowess by "butting in" to use the slang vernacular, and one who uses good judgment in the interest of his people by overthrowing the greater evils.

President Roosevelt is a statesman who stands for all that is fair and just, and is not afraid to show his colors. Governor Hanly, of Indiana, is another. In regard to the dismissal of the state auditor, Gov. Hanly gave utterance to the following sentiments:

"The law of Indiana was violated by the auditor of state, David Sherrick, the incumbent, has for years been my personal friend, but if my own brother had been auditor my action would have been the same. If the time ever comes when my personal friendships or interests are to stand in the way of my doing my full duty by the people who have honored me by voting me into the highest office in their power, then I will be ready to relinquish the governorship."

And those who know Gov. Hanly are confident that he means exactly what he says.

If the principle thus enunciated by Indiana's governor were enforced everywhere, the people would get much better public service.

Personal friendship too often stands in the way of official duty.

## ALL SPITE WORK.

The attitude of the council in the Jefferson street and Kentucky avenue improvements smacks very much of petty spite towards the board of works. It is a well known fact that whatever the board of works favors certain members of the legislative boards oppose no matter what the merits of the case may be.

In this street improvement affair the order to proceed with the work leaves the general public in the helpless predicament of having the streets torn up in rainy, muddy weather, perhaps leaving them a lot of trouble for days and weeks at a time, and with having the beautiful material laid in cool or cold weather, which will make a bad thoroughfare, as on Broadway, and result in much trouble and expense to both public, property owners and contractors.

There are a good many small things done by our legislative bodies, but nothing seems too small for the council to do.

Judge Alton B. Parker, late lamented candidate for president of the United States, is quoted as denouncing the life insurance companies and other corporations that contributed to the Republican campaign fund. Judge Parker is certainly ab-

surdly unreasonable to suppose that political campaigns can be waged without funds, or that campaign funds can be created without someone contributing to them. He is also very much mistaken. If he thinks campaign funds defiled him. The people of the United States defeated him, and all the money in the country could not have elected him, or defeated President Roosevelt. Our friends, the Democrats, may rail at campaign contributions as much as they like, but they were never known to turn one down, and probably never will be known to do it. As long as the Republican party stands for a sound, sane, stable government and is opposed to the visionary theories of Democracy, it will be the choice of the American people, and in its campaigns for supremacy will find the hand of every big institution in the land ready to help it.

Gov. Hoch, of Kansas, has met his Waterloo. Seeking in vain to find something else to do the other day, he decided to stop a "wild west" show, and issued orders accordingly. The district attorney reported that there was no law against it, and was promptly ordered to stretch whatever law there was. Then the attorney sent word back that there was nothing doing in the rubber line—and the law was not stretched and the wild west show continues to exhilarate its usual spectators. Some governors have very little power, after all.

A crusade has been started by some of the eastern journals against patent medicines, but the attacks will probably prove as harmless as some of the medicines themselves are. Unless a nostrum is harmful, if people who imagine something is the matter with them imagine the medicine is doing them good, where's the injury? In their mind race for notoriety, however, these magazines have to have material of some kind.

The Republicans of Paducah and McCracken county should begin to pick out their men for city and county offices. The conventions are not far away, and to win the best possible material should be put up. There are many good men in the party and they should show their interest in a better municipal and county government by signifying a willingness to be candidates for the various nominations.

A hard fight, according to reports, is being made against the Hargis clan in Breathitt county in the forthcoming election. It is difficult to imagine, however, how the Hargises and their supporters can be defeated in their own backwater when the entire state of Kentucky, outside of Breathitt county, has been unable to do anything with them.

The Chinese boycott, as predicted, has proven a failure. As Secretary Taft explained, it was a case of cutting off the nose to spite the face. The Chinese found themselves less able to get along without our goods than we were to get along without their trade, and they have raised the boycott.

It is amusing to hear the council talk of delay and "dilly-dallying." If there is anything on earth capable of killing more valuable time or delaying important matters than the two legislative boards of Paducah, we have never heard of it.

Those experts should find a few diamonds in Elliott county, Kentucky, before they make such extravagant predictions of the section rivaling the Klumberly fields. We are perfectly willing to believe, but would like to be shown.

The recent outbreaks in Japan indicate that the Japs are fully as capable of raising a row at home as the Russians. The ebullitions were probably only the surplus pugnacity that they didn't get to use on the Russians.

The people of Cincinnati do not appear to be very much alarmed over the kind of yellow fever they have imported there, as the worst patient they found has been lively enough to elude the police for several days.

A foul tip is the one you get on the wrong horse.

## A Few kentuckians Who Are Doing Well in a Number of Western States

Kentuckians are taking an active and prominent place in the social and commercial life of the west. No matter what part is visited a large and creditable representation is to be encountered. Especially is this true in the extreme west; says Mrs. Elizabeth Gregory in the Louisville Times.

The Kentuckian is quite as popular among the unconventional and easy-going westerners as he is in his native state, and has established such an enviable precedence, that to hail from the Bluegrass region is a recommendation in itself.

The southern woman with her distinct charm finds the social scene an easy one, and with her superior qualities and adaptability she readily obtains leadership. This is also applicable to the genial southern man who quickly finds recognition in the business world.

Of the coast cities Seattle probably has the largest quota of prominent men, among whom are Senator Samuel H. Piles, a Paducah attorney, who for several years has made his home in this thriving western metropolis, and whose wide popularity has taken him to the United States senate.

Dr. Henry Yandell, of Louisville, a brother of the late Lunsford Yandell, and his sons, Henry and Chas. H. Yandell are in Seattle. Mr. Henry Yandell, Jr., married Miss Piles, a sister of Senator Piles and his brother, Charles H. is assistant city editor of the Post-Intelligencer, the leading morning paper.

Mr. William P. Trimble, of Covington, a capitalist, has made a fortune in tide-lands. During the past year he has completed as a summer residence a bungalow, the handsomest to be found near Seattle. It is surrounded by 300 broad acres of land, a portion of which has been laid out in a golf course, tennis court and landscape garden. A clear stream traversing the grounds, stocked with trout, makes it a place of rare beauty.

Mr. Trimble has also added several cabins, which he places at the disposal of his friends during the summer term. Mrs. Trimble was a Miss Ford, also of Covington. Judge William Hickman Moore, of Shelbyville, is a former superior court judge and an ex-member of the legislature of Washington. Judge Moore is favorably spoken of as a democratic candidate for mayor of Seattle next spring.

Mr. and Mrs. William Lambuth, of Henderson, reside in Seattle. The former is a daughter of ex-Governor Letcher.

Mr. and Mrs. F. Hooker Reed, who have taken a handsome home in a desirable part of Seattle, entertain frequently in an informal fashion. Judge G. W. Saulsbury, of Louisville, is a prominent and popular jurist of Seattle.

G. A. C. Rochester, of Versailles, is a well-known attorney of Seattle and a member of the library board. Mrs. Rochester is also a Kentuckian and a woman of rare musical ability. She is closely connected with the Robinsons, of Louisville, where she has frequently visited.

Mr. J. C. Allen and Mr. John H. Allen are partners in a well-established law firm in Seattle. The former ran for prosecuting attorney on the democratic ticket last fall.

Mr. Charles Stewart, of Louisville, another young attorney, is meeting with more than ordinary success in Seattle.

James G. Givens, of Louisville, who is engaged in mining investments and owns large interests in mica and gold in Alaska.

Other prominent Kentuckians in Seattle are Mr. and Mrs. Thos. Green, Mr. and Mrs. Joshua Green and Mr. and Mrs. Thomas Hardin, all of Danville.

In Denver are Judge and Mrs. Sterling B. Toney and their son, Burge. Judge and his son constitute a law firm which is doing a thriving business under the brilliant direction of the Judge.

The Toneyes are making a world of friends and their hospitable home is already the center of a charming social circle.

Mr. Shirley Moore, of Louisville, now a Denver capitalist, is prominently identified with the governing social set.

Miss Louise Lee Hardin, editor and founder of the Bluegrass Woman's Magazine. Miss Hardin's latest movement in the interest of woman is to organize a state business league, an auxiliary to the national Woman's League, of which she is president. The purpose of the league is to establish rest places for women. These country homes will not be places of idleness, but retreats where useful and congenial employment may be obtained and where business women may maintain

their independence. They are neither charitable institutions or money-lenders, simply homes, where every member of the league has the privilege of going.

Mr. Emmett Harvey, of Louisville, a valued member of The Times staff. He and Mrs. Harvey, who was Miss June Dudley, of Georgetown, are charmingly located on Capitol Hill and enjoy social popularity.

Miss Eugenia Thins Lawton, who is filling eight weeks' engagement at the Alcazar in San Francisco, will leave shortly for Los Angeles, where she will fill a similar stand.

Mr. and Mrs. Murrell Lee Buckner of Louisville, who have been making Dallas, Texas, their home for the past several years have recently completed a spacious home near the Country Club, about three miles from Dallas. It is of colonial architecture and altogether is one of the most delightfully equipped homes in this attractive little city. Mr. Buckner is a brother of Mrs. Flournoy, of Paducah, formerly Miss Blanche Buckner, of the Isle of Spice company.

## RUSH IN CIRCUIT COURT THIS WEEK

Several Cases Taken Up and Disposed Of By Judge Reed.

Felony Charge Against City Jailor Thomas Evitts Continued Until December.

## NEWS FROM OTHER COURTS

The case against City Jailor Tom Evitts for maliciously striking Officer William Headles was this morning continued until December on account of the failure of the defense to prepare for trial.

He staid in his affidavit for continuance some of his witnesses lived out of town, and it would be impossible to get them here within the next few days. The court granted the continuance with the understanding that immediate steps be taken by which the witnesses will be in attendance at the next sitting of the court.

The case against Alonzo Pollard charged with malicious shooting was continued because of the absence of witnesses.

Business was finished today by 11:30 o'clock and Judge Reed adjourned at this hour for the remainder of the day.

This morning Judge Reed dispatched business with remarkable rapidity in circuit court.

An old indictment charging Shelle Hughes with obtaining money by false pretenses, was filed away.

Annie Cox, 104 Eastwood, Fannie Wilson and Frankie Dixon, bawdy house keepers, were fined \$10 and costs each.

James Collins and James Tally charged with stealing shirts from the porter's quarters at the Palmer Hotel, were found not guilty.

Riley Cromley was found guilty of false swearing in the Katie Powell case and given one year in the penitentiary.

## Police Court.

Jesse Stringer, a small colored boy lately employed at the Paducah Cooperage Co. plant in Mechanicsburg, was arraigned in police court this morning on two separate charges of forgery, and the case was continued.

The boy is alleged to have "raised" two pay checks, one from \$1.17 to \$4.47, and another from \$1.45 to \$4.45, which were given him by the company in payment for labor performed. The case was continued on account of the absence of witnesses.

Other cases were: Tom Clark, white, drunk, \$1 and costs; Reed McCormack, white, breach of the peace, \$5 and costs; Pete Thompson, Phillip Jones, colored, breach of the peace, continued; Will Haynes, breach of the peace, \$10 and costs; Shad and J. Cleveland, O., Sept. 18.—As a sign painter a cousin of Lord Kitchener, England's greatest military man, is making his living here. His name is Fred M. Kitchener. He lives at 955 Kinsman street.

The Cleveland Kitchener has never seen his noble cousin. He is 38 years old, and has been in America since he was 8 years old. In Canada he was in the army, where he reached the rank of staff sergeant in the Royal Grenadiers. He bears a remarkable resemblance to Lord Kitchener.

"My father and the present Lord Kitchener played together when they were children," said Kitchener today.

WHITTEN AT RANDOM.

A new method of fishing has been adopted in this part of the country. Several sportsmen who grew tired of fishing with a hook and line and catching one fish at a time, bought a large 100-foot net. The net is interwoven and not intended to catch a fish as the ordinary net is. The net is tied to the bank by a stake, and carried out into the lake, a circle made and the other end fastened to the bank some distance from the first end tied.

This makes a complete half circle in which there are many fish. The net is supplied with sinkers and floats and after it is securely fastened the fishermen take boats and paddle about the logs and brush and all the fish confined within the space taken up by the net make a dash for the open lake, strike the net and their fins become powerless, being caught in the thickness of the woven net.

The fishermen then take up the net, extricate the fish, dump them into the skiff and so on until the net is "worked." This done the fishermen go to an undisturbed portion of the lake and repeat the performance. Out of half a dozen sets of the net, a party of fishermen secured three market baskets full of fish.

Some very amusing incidents illustrating absentmindedness are told, but one calculated to evoke more than the usual merriment is on a well known local attorney.

The telephone interrupted him while he was reading upon law. His stenographer answered the call and announced to her employer that some one wanted him. By the time she had received the call the attorney had become absorbed in his law and after writing a few moments across and went to the open door and poking his head outside in an absent-minded way, cried, "Hello."

Another joke told on another lawyer is also amusing. He uses glasses in reading and while looking over some documents reached into his pocket for his glasses. Taking the spectacles out of the case, he tried to put the case over his ear and stick the glasses in his pocket. He caught himself just as his stenographer was preparing to remind him that he could not see through the case.

## FOR TWO WEEKS

The Trial of the Packers Will Begin at Chicago.

Chicago, Sept. 19.—It is probable the trial of packers for alleged violation of law will not begin for two weeks. It is not considered possible that the preliminary matters now at issue can be disposed of before that time. If the defendants' contentions are all knocked out, many will avail themselves of other methods of delay.

## "David, the Shepherd Boy."

## At The Kentucky Last Night

The entertainment at the Kentucky last night for the benefit of the Y. M. C. A. given by local talent was very successful in every detail. It was the cantata, "David, the Shepherd Boy." The music to it is very tuneful, and the setting and costumes are very pretty. The principal parts were well handled, and the choruses too, were good.

Mrs. David Flournoy, as Abigail, the Queen of Carmel, had several pretty solos, which she sang beautifully, and to Mrs. James Welle as Michael, Saul's daughter, fell some pretty solos which showed off an excellent voice that all Paducah appreciates highly. The other principal parts were in good hands. Mr. Harry Collins had the role of "David," Mr. John Bleeker, "Saul King of Israel," Mr. Franklyn Hall, "Jesse, Father of David," Dr. Whitesides, "Samuel, The Prophet," Mr. Ned Ashbrook, "Abner."

Mr. Cade Davis and Mr. Ben Matthis as the sentinels are deserving of special notice, as is, also, the quartette of shepherds, Messrs. Slayden, Mall, John U. Robinson, John Cheek and John Green.

Miss Vera Hubbard sang "Judith," and Mr. Robert D. MacMillen "The Palms," between the acts.

The entertainment will probably net the association over \$100.

## SWEET IN THE ICE MAN

To Find Out If He Had Put in Ten Cents Worth of Ice in the Cooler.

City Clerk Henry Bailey has a unique way of receiving supplies for the city hall, and does not intend to let the city be beaten by even the ice man.

Clerk Bailey receives many supplies and always takes the precaution to swear all persons delivering them. This morning a reporter happened into his office about the same time the ice man came. The ice man had just placed a lump of ice in the water cooler and wanted his pay.

"Hold up your right hand," Clerk Bailey demanded, assuming as much dignity as the occasion demanded.

Up went the ice man's right hand and with a face plainly evidencing his surprise, for he was a new ice man.

"You solemnly swear that you placed ten cents worth of ice in that water cooler?" Clerk Bailey demanded.

The ice man swore that he did and the ice ticket was produced and the ice man went his way.

"You see I never let them get away from me," Clerk Bailey explained, "and whenever there is any skimming to be done, you can bet that I will be in to see how it is done—If I have anything to do with it."

## HOMING PIGEONS

Made Good Record From Eddyville—Fly From Fulton Next.

"Young Trigger," Louisville champion in the homing pigeon 150-mile class, won the second race in the young bird series Sunday. The Homing Pigeon club arranged the race. The start was from Eddyville.

"Trigger," owned by Walter Grau, was liberated with fifty-one birds by the agent of the American Express company.

"Trigger" covered 150 miles in four hours and two minutes, thus clipping thirty-two minutes from the record. This record has been held since 1893 by George Rademaker's "Marion." Ed. Leyer's "Princess" was the J. E. Hagan silver cup. S. J. Schreck's "Tracy" gets first pool prize, while Dr. Frazier's "God Liver Oil" gets second pool prize.

Next Sunday's race will be from Fulton, 200 miles air line. This will close the young-bird races. It gives a successful fly, some will try for the long-distance young birds' race from Memphis, Tenn., to Louisville.

The Message Came Too Late.

New York, Sept. 18.—A telephone message from Baltimore to New York notified Roche's hotel, on 38th street that J. S. Green, a Baltimore boy, was probably dead in his room. It was a woman's voice which called the hotel, and stating that she was the sister of J. S. Green, 18 years old, she asked that the management hurry to her brother's room to save his life if possible. She had just received at her home in Baltimore a letter from the young man announcing that he intended to commit suicide.

The hotel management made a hurried investigation and found the boy in his room dead, with a bullet wound in the region of his heart.

Relatives with whom he had lived admitted that Green took his life because of the hopelessness of his love for a lady considerably his senior, who lives at Sparrow's Point near Baltimore. He is said to have assigned this reason for his act in the letter received by his sister. Nothing whatever is known by his relatives of any man who could be responsible for young Green's trouble as indicated in a letter which is understood to be in the possession of the New York coroner, though it may possibly refer to some one more fortunate than the suicide in the suit for the lady.

## PAYNE MAKES A GREAT HIT.

Tells of His Work—Crowds Increase at His Second Day's Celebrations.

Have you met Payne?

This is the question going the rounds just now. The great advertiser is the most talked about personage who has ever visited this city.

The remedies he is disposing of at the Smith & Nagel drug store, corner Fourth and Broadway, where he is making his headquarters, are going at a rapid rate. People have heard so much about the remedies that they are anxious to secure them while the opportunity is ripe. Payne's most liberal offer of allowing everybody to obtain his medicines on trial is greatly appreciated and already the remedies can be found in a great number of homes in this city. Everybody should see Payne and talk to him about their ailments. Payne only remains here about two weeks, so all who desire to see him and secure his most wonderful remedies should lose no time about it. He is at his headquarters every day from 9 to 5 o'clock.

To a reporter Payne said: "I have given in the past public demonstrations of the power of my remedies to remove in less than three minutes deafness of years' standing or paralysis of limbs or face. This sounds impossible, of course, but it remains to be seen whether I can accomplish this or not. My main preparation is for the removal of stomach trouble, catarrh and rheumatism."

"I will gladly talk with callers who wish to see me at the Smith & Nagel drug store between the hours of 9 a. m. and 5 p. m. Either myself or assistants will see all who call and will explain the nature of my remedies to them in person. All medicine I sell is on trial and may be returned to me at any time and the prices will be immediately refunded."

Payne seems to be much in earnest and if he is able to do half what is claimed for him, his work must be very unusual and he is certainly entitled to as much success here as he has had elsewhere. "God bless Mr. Payne" is heard from relieved sufferers through the country and Payne expects the same benediction from local sufferers before he leaves us.

### THE IDES OF MARCH

No. 1 of the Series  
(Continued from yesterday.)

"I know the shop," he whispered, "because I've got a few things there. I know this upper part too. It's been let for a month, and I got an order to view and took a cast of the key before using it. The one thing I don't know is how to make a connection between the two. At present there's none. We may make it up here, though I rather fancy the basement myself. If you wait a minute I'll tell you."

He set his lantern on the floor, crept to a back window and opened it with some care, and then, after shutting the window with the same care.

"That was our one chance," said he, "a back window above a back window, but it's too dark to see anything, and we haven't shown an outside light. Come down after me to the basement and remember, though there's not a soul on the premises, you can't make too little noise. There—there—listen to that!"

It was the measured tread that we had heard before on the digstones on the side. Raffles darkened his lantern, and again we stood motionless till it had passed.

"Either a policeman," he muttered, "or a watchman that all these jewelers run between them. The watchman's the man for us to watch. He's simply paid to spot this kind of thing."

We crept very gingerly down the stairs, which creaked a bit in spite of us, and we picked up our shoes in the passage; then down some narrow stone steps, at the foot of which Raffles showed his light and put on his shoes once more, bidding me do the same in a rather louder tone than he had permitted himself to employ overhead.

We were now considerably below the level of the street in a small space with no many doors as it had sides. Three were ajar, and we saw through them into empty cellars, but in the fourth a key was turned and a light shown, and this one promptly let us out into the bottom of a deep, square well of fog. A similar door fitted it across this area, and Raffles had the lantern close against it and was hiding the light with his body when a short and sudden crash made my heart stand still. Next moment I saw the door wide open and Raffles standing within and beckoning me with a finger.

"Door No. 1," he whispered, "Doesn't know how many more there'll be, but I know of two at least. We won't have to make much noise over them either. Down here there's less risk."

We were now at the bottom of the exact fellow to the narrow stone stair which we had just descended, the yard, or well, being the one part common to both the private and the business premises. But this light led to no open passage. Instead a singularly solid mahogany door confronted us at the top.

"I thought so," muttered Raffles, handing me the lantern and pocketing a bunch of skeleton keys after tampering for a few minutes with the lock. "It'll be an hour's work to get through that."

"Can't you pick it?"

"No. I know these locks. It's no use trying. We must cut it out, and I'll take us an hour."

It took us forty-seven minutes by my watch, or, rather, it took Raffles, and never in my life have I seen any thing more deliberately done. My part was simply to stand by with the dark lantern in one hand and a small bundle of rock oil in the other. Raffles had produced a pretty considerable noise, intended obviously for his razors, but filled instead with the tools of his secret trade, including the rock oil. From this case he selected a bit capable of drilling a hole an inch in diameter and fitted it to a small but very strong steel brace. Then he took off his coat and his blazer, spread them neatly on the top step, knelt on them, turned up his shirt collar and went to work with brace and bit near the keyhole. But first he oiled the bit to minimize the noise, and this he did habitually before beginning a fresh hole and often in the middle of one. It took thirty-two separate borings to cut round that lock.

I noticed that through the first circular office Raffles thrust a forefinger; then as the circle became an ever lengthening oval he got his hand through up to the thumb, and I heard him swear softly to himself.

"I was afraid so!"

"An iron gate on the other side?"

"How on earth are we to get through that?" I asked in dismay.

"Pick the lock. But there may be two. In that case they'll be top and bottom, and we shall have two fresh holes to make, as the door opens inward. It won't open two inches as it is."

I confess I did not feel sanguine

about the lock picking, seeing that one lock had baffled us already, and my disappointment and impatience must have been a revelation to me had I stopped to think. The truth is that I was entering into our nefarious undertaking with an extraordinary zeal of which I was myself quite unconscious at the time. The romance and the peril of the whole proceeding told me spell-bound and entranced. My moral sense and my sense of fear were stricken by a common paralysis. And there I stood, shivering my light and holding my vital with a keener interest than I had ever brought to my honest avocation. And there knelt A. J. Raffles, with his black hair tumbling and the same watchful, quiet, determined half smile with which I had seen him send down over after over in a county jail!

At last the chain of holes was complete, the lock wrenched out bodily and a splendid bare arm plunged up to the shoulder through the aperture and through the bars of the iron gate beyond.

"Now," whispered Raffles, "if there's only one lock it'll be in the middle. Joy! Here it is! Only let me pick it, and we're through at last!"

He withdrew his arm, a skeleton key was selected from the bunch, and then he went to the door. It was a breathless moment. I heard the heart thumping in my body, the very watch ticking in my pocket and ever and anon the thud of the skeleton key. Then—at last—there came a single unmistakable click. In another minute the mahogany door and the iron gate yawned behind us, and Raffles was sitting on an office table, wiping his face with the lantern throwing a steady beam by his side.

We were now in a large and roomy lobby behind the shop, but separated therefrom by an iron curtain, the very sight of which filled me with despair. Raffles, however, did not appear in the least depressed, but hung up his coat and hat on some pegs in the lobby before examining this curtain with his finger.

"That's nothing," said he after a minute's inspection. "We'll be through that in no time, but there's a door on the other side which may give us trouble."

"Another door?" I groined. "And how do you mean to tackle this thing?"

"Try it up with the jointed jimmy. The weak point of these iron curtains is the leverage you can get from below. But it makes a noise, and this is where you're coming in, Hunny. This is where I couldn't do without you. I must have you overhead to knock through when the street's clear. I'll come with you and show a light."

Well, you may imagine how little I liked the prospect of this lonely vigil, and yet there was something very stimulating in the vital responsibility which it involved. Hitherto I had been a mere spectator. Now I was to take

He wrote to Dr. G. C. Green:  
"As true as I tell you, doctor dear,  
I'm better than ever I've been!"

"The poor consumptive should not be the victim of experiment, as he often is, but the moment the dread disease manifests its presence he should be given Boesche's German Syrup—a pure, non-alcoholic medicine that is made specially for the cure of consumption, and has a worldwide fame as a certain remedy for catarrh, colds, coughs, croup, sore throat and all bronchial affections in old and young. It is sold in all civilized countries, and has been famous as a consumption cure for almost half a century."

part in the game. And the fresh excitement made me more than ever susceptible to those considerations of conscience and of safety which were already as dead nerves in my breast.

So I took my post without a murmur in the front room above the shop. The fixtures had been left for the refusal of the incoming tenant, and fortunately for us they included Venetian blinds, which were already down. It was the simplest matter in the world to stand peeping through the lattice into the street, to beat twice with my foot when anybody was approaching and once when all was clear again. The noises that even I could hear below, with the exception of one metallic crash at the beginning, were indeed incredibly slight, but they caused me to get up at each double rap from my bed, and a policeman passed quite half a dozen times beneath my eyes and the watchman's lantern still during the better part of an hour that I spent at the window. Once, indeed, my heart was in my mouth, but only once. It was when the watchman stopped and peered through the peephole into the lighted shop. I waited for his whistle. I waited for the gabbers or the fall. But my signals had been studiously obeyed, and the man passed on in undisturbed serenity. In the end I had a signal in my turn and retraced my steps with lighted matches down the broad stairs, down the narrow ones, across the area and up into the lobby where Raffles awaited me with an outstretched hand.

"Well done, my boy!" said he. "You're the steepest good man in a pinch, and you shall have your reward. I've got fifty worth if I've got a pennyworth. It's all in my pocket. And here's something else I found in this locker—very decent pair and some cigars, meant for poor dear Danby's business friends. Take a pull, and you shall light up presently. I've found a lavatory, too, and we must have a wash and brush up before we go, for I'm as black as your boot."

The iron curtain was down, but he insisted on pulling it up till I could peep through the glass door on the other side and see his handiwork in the shop beyond. Here two electric lights were left burning all night long, and in their cold white rays I could at first see nothing amiss. I looked along an orderly line, an empty glass counter on my left, glass cupboards of untouched silver on my right and, facing me, the flimsy black eye of the peephole that alone like a stage moon on the street. The counter had not been emptied by Raffles. Its contents were in the child's safe, which he had given up at a glance. Nor had he looked at the silver, except to choose a cigarette case for me. He had confined himself entirely to the shop window.

This was in three compartments, each secured for the night by removable panels with separate locks. Raffles had removed them a few hours before their time, and the electric light shone on a corrugated shutter bare as the ribs of an empty carcass. Every article of value was gone from the one place which was invisible from the little window in the door. Elsewhere all was as it had been left overnight. And but for a trail of mangled doors behind the iron curtain, a bottle of wine and a cigar box with which Raffles had been taken, a rather black towel in the lavatory, a barbit match here and there and our finger marks on the dusty handrails not a trace of our visit did we leave.

### BEAUTIFUL GIRL DIES AT METROPOLIS

Miss Alice Eleanor Willis Succumbs After 9 Weeks Illness.

Mrs. A. L. Kennedy Dead Near Metropolis—Other Metropolis Matters of General Interest.

### METROPOLIS' FANS JUBILANT

Metropolis, Ill., Sept. 19.—After an illness of nine weeks, every one of which was filled with the most terrible suffering, Miss Alice Eleanor Willis, only daughter of Dr. and Mrs. J. T. Willis, died Sunday evening at 5:15 o'clock. Miss Willis, some two months ago contracted a severe cold which terminated in muscular rheumatism of the severest type. Since then her sufferings had been almost unendurable, but with a fortitude characteristic, she bore them without a murmur. She was without doubt the most popular of the city's young ladies and the many expressions of sorrow heard upon the streets and in the business houses attest to that fact. She was born August 24, 1885, grew up in this city and was graduated from the High School with the class of 1902.

As a member of society, none outshone her; blessed with extreme beauty and a disposition as sweet, gentle and loving as a child's, she naturally drew around her a host of true and loyal friends, both here and elsewhere, to whom the news of her death brings inexpressible sorrow. Several years ago, during a carnival she was voted the prettiest and most popular young lady and reigned as queen of the festivities. In Paducah, where she frequently visited, she has many acquaintances and friends. Her funeral services will be conducted tomorrow (Wednesday) at the home on Metropolis and Second streets, by Rev. Dr. Davenport, of the Episcopal church, assisted by Rev. Morris of the Methodist, and Hoyd, of the Congregational churches, burial immediately thereafter in the Masonic cemetery.

Mrs. A. L. Kennedy died at her home near town Sunday, after an illness lasting four and one-half months. Mrs. Kennedy's maiden name was Hart. She was about 45 years old and a native of Kentucky; a sweet-faced, modest and kindly woman whose presence will be sadly missed by family and friends. Mrs. Kennedy leaves besides her husband four sons and two daughters, also one sister, Mrs. Judith Ogden, of Morehouse, Mo., who had been in attendance at her bedside for several weeks, and was with her during the last hours. She was a member of the Methodist church. Funeral services were held this afternoon by Rev. D. W. Hopkins, after which the re-

mains were laid away in the Masonic cemetery.

J. L. Sparks, until recently interested in the Marion Post, spent Sunday with parents and friends here. Charles Schneider left for Jacksonville yesterday to attend the deaf and dumb school at that place. William E. Walsh was in Herrin on business yesterday.

Mrs. Dennis Trammell and daughters, Nellie and Fannie, left for their future home in St. Louis yesterday. S. O. Brockett was in town Sunday and Monday. He attended the ball game Sunday and helped root for the Blues.

Mrs. Annie Conner-Kimball, of Arkansas City, arrived Monday for a visit with her many friends and relatives.

Mrs. Dr. Swann is home from Crenel Springs.

Four drunks in one day is the unusual record of our police force for Monday. That the lid was on so tight Sunday is perhaps responsible for so much hilarity the next day after.

Miss Eunice Taylor was in the city yesterday en route to her home in Samoth. She had been visiting in Paducah.

Joe Shelton has rented his farm to John Krueger and will remove his family to Metropolis. Mr. Shelton expects to visit Springs to work at his trade, that of machinist.

Mrs. Charles Culver, of St. Louis, died on the 13th inst. She was the daughter of A. Z. and Mary Fuller, former residents of Metropolis. She was 17 years of age and a bride six months ago.

Miss Ruth Cochran, of Murray, Ky., is at the Riverside hospital. Miss Cochran will enter the nurses' school, which will begin at the hospital on the first of October.

Mrs. Eugene Lewis, of South Fourth street, was discharged from the hospital today.

There are at present in the hospital eleven patients. Fifty-seven patients have been admitted since the institution was opened. The hospital has not been open two months yet, having opened on the 22nd of July.

Abstracts.

Abscesses, with few exceptions, are indicative of constipation or debility.

W. H. Harrison, Cleveland, Miss., writes, Aug. 15, 1902: "I want to say a word of praise for Ballard's Snow Liniment. I stepped on a nail, which caused the cords in my leg to contract and an abscess to rise in my knee, and the doctor told me that I would have a stiff leg, so one day I went to J. F. Lord's drug store (who is now in Denver, Col.) He recommended a bottle of Snow Liniment; I got a 50c size, and it cured my leg. It is the best liniment in the world."

### A CAVE IN

BURIED JOE MATTHEWS, COLORED, TO HIS NECK.

He Was Exhorted With Difficulty Before Being Seriously Injured.

Joe Matthews, colored, employed as a pipe layer on the sewer job on Kentucky avenue, had a narrow escape from being buried alive yesterday afternoon between 3 and 4 o'clock on Kentucky avenue between Third and Fourth streets.

Matthews was in a lateral excavation laying pipe when the sides of the excavation gave way and the dirt piled in about him. His cries for help brought several fellow laborers to his assistance and he was dug out before he was seriously hurt.

Matthews was buried nearly to his neck and so firmly that he could not extricate himself unaided. His neck and one arm alone protruded from the dirt. He suffered a shakedown and several bruises, but was able to return to work this morning. The contractors to preclude any further accidents of this nature, have begun to put in supports.

## COUNTY TEACHERS ARE POORLY PAID

A Shortage of About 1000 in the Entire State.

McCracken County Not Affected, as All the Schools Have Teachers.—County School Notes.

### NEWS OF THE CITY SCHOOLS.

County Superintendent of Schools Marvin Ringsdale has received notice from State Superintendent James H. Fuqua, Sr., that the county superintendents over the state will not be permitted to issue special license to teachers. In 1904 there were many schools in the various counties without teachers and it was decided by the state authorities to issue special license to persons desiring to teach, thereby filling the vacancies caused by the scarcity of regular licensed teachers.

The order was made last year giving many persons without certificates authority to teach in the common schools. There are as many vacancies this year as there were last year, but State Superintendent Fuqua has decided to have the county superintendents refuse to permit persons without certificates to teach. It is thought that the next general assembly will make some new provision for the benefit of the schools.

Mr. Fuqua thinks that the scarcity of teachers is caused by the poor pay they receive from the state. There will be about one thousand schools in the state without teachers this year.

McCracken county, however, is not affected by this shortage in teachers as there is no shortage here. Every school has a teacher and everyone seems to be satisfied.

#### One Question Unsettled.

A question that has been hanging fire for several months, and is not yet settled, is that of dividing the school district in the lower part of the county, and apportioning the pupils. Both Ballard and McCracken counties are claiming some of the pupils, and the state superintendent will have to settle who is entitled to collect the per capita on them, which he has never yet done.

#### School House Mired.

McCracken county just now boasts of something that probably no other county in the state has. It is a school house mired firmly where it does not belong. The school in district No. 25, has occasioned considerable trouble and it was decided as a compromise to move the building which is in the Clark's river section. The reunited factions, however, now find themselves in a worse predicament than ever, as they no more than started moving it to a place where everyone wanted it, than it got mired up in a field where no one wanted it, and there it still is, although they have tried to extricate it with everything from a yoke of oxen to a traction engine.

At last accounts, Prof. Ragsdale said today, the trustees would have to wait until the ground dries out to get the building farther, and when this will be no one can tell.

#### City School Notes.

The school authorities are wrestling with a question of economy in supplying the pupils with ice water, and hope to be able to decrease the expense. In the meantime the pupils are without ice water and will remain so until some arrangement is made by which enormous water casks can be built and furnished to the schools.

Last year when ice water was furnished the schools in the brief period of two weeks, \$40 worth of ice tickets were used. Forty dollars is rather a large figure, and before the school board jumped into the matter again, it held up the purchase of ice.

The idea of the board is to secure a large hoghead and place a smaller barrel within it packing the space between the inside of the hoghead and the outside of the barrel with sawdust. This makes a very good cooler, and Supt. Leth stated with these in use, fifty pounds of ice will last a day. This would curtail the expense of furnishing the ice water and arrangements will be made at once to have the coolers made.

Friday the first monthly teachers' meeting will be held at the High school and a committee appointed to select a course of study for the teachers. After the course is adopted the meetings will run along smoothly, being held the last Friday in each month.

Following the teachers' meeting Friday morning, the grade meetings will be held in the afternoon.

#### GOES ON THE ROAD.

Mr. Morris May, Formerly of Paducah, Now a Drummer.

Mr. Morris May, formerly an attaché of the Wallerstein company here, but late of Cairo, has accepted a position as traveling salesman for the S. A. Millip Clothing company, of Louisville. He goes on the road at once, and his territory will be Kentucky, Illinois and Missouri.

# Buying and Selling for Cash

## Is the only method by which High Grade Clothing can be sold at POPULAR PRICES

By going direct to the manufacturer with SPOT CASH we get the best possible price. By selling to our customers for SPOT CASH we avoid any losses. When we price our goods at the popular prices of \$7.50, \$10.00 and \$12.50 we figure to a cent what our profit will be in cash. By our cash methods we do not have to add from \$2.50 to \$5.00 per suit to cover possible losses which must be done by houses doing a credit business. DID YOU ever notice that when CREDIT HOUSES have their cut price sales and put their goods down to our all-the-time prices they always advertise them for CASH ONLY? Isn't that proof that High Grade Clothing can be sold at our popular prices if the loss due to a credit business is cut out?

## IT IS UP TO YOU

As to whether you will pay \$12.50, \$15.00 or \$20.00 for your winter suit at houses where you have to help pay for their losses or buy the same quality of us at \$7.50, \$10.00 or \$12.50—prices that pay us a legitimate profit, because there is no loss from people who don't pay their bills.

Isn't the saving of \$2.50 to \$5.00 worth coming here to investigate?

**For \$7.50** We have a line of new Fall SUITS that are the equal in value to any of the \$10.00 and \$12.50 suits on sale at stores that do credit business.

**For \$10** We have a line of SUITS that are the exact same things that houses who do credit business will ask you \$15.00 for.

**For \$12.50** We have a line of Fall and Winter SUITS which are the equal in every way of suits for which houses that do credit business charge \$18.00 and \$20.00.

#### NEW FIELD SECRETARY.

Mr. Clyde E. Van der Maaten Elected for the Christian Endeavor of the State.

Clyde E. van der Maaten, secretary of the Louisville Christian Endeavor union, has been elected field secretary of the Kentucky Christian Endeavor union. He will devote his entire time to the work—travel over the state, organize societies and revive the work in general.

Mr. van der Maaten was born in Portland, Ind., May 26, 1884. At three years of age his parents moved to Ohio, and four years later they came to Kentucky. He has been active in Endeavor work for sometime in several towns in the state where they lived, and in a short time after they went to Louisville he was elected secretary of the Louisville Union, which position he has held for over two years.

Mr. van der Maaten commenced his new work September 11.

#### Died of Brain Fever.

William, the 17-months-old son of Mr. John Loftus, the I. C. engineer, died at the home of his father, 1122 Trimble street, last night at 6 o'clock of brain fever after a week's illness. The body was shipped to Henderson today for interment.

#### Trotting Backward.

The News-Democrat seems to be against everything new and up-to-date. Three years ago it supported a man for the vice-presidency who was right on to 100 years old. Now it is supporting Senator Blackburn who has lived out his usefulness and should be retired on account of old age and physical weakness, to say nothing of his mental capacities. This same paper is now advocating the destruction of our present state constitution, so as to take the back track for at least fifty years, and take up the old viva voce system that has become obsolete in almost every state and nation on the globe.

It won't be long until we shall expect to see advertised in the News-Democrat the old flax wheel, the old wooden plow, and the great advantages of the old pot rack.

It is rather pitiable to see such a paper take the back track on every proposition of any importance to this country.—Mayfield Messenger, Democrat.

#### Congressman James Here.

Congressman Ollie M. James, of Marion, Ky., was at the Palmer last night en route home from Mayfield, where he spoke yesterday to about 2,000 people attending the tobacco growers' convention.

#### LEVY'S OPENING

Postponed Until Saturday, September 23, Owing to Delays.

Owing to the late arrival of some important fixtures and stock Levy's of 317 Broadway, are forced to postpone their opening until the coming Saturday in place of tomorrow as previously announced.

We regret exceedingly to ask the ladies of Paducah to wait longer, but we feel sure that they will be well repaid for so doing. This store will positively open on that date, and you may prepare your eyes for a feast, Saturday morning at 8:30 the doors will be thrown open and everybody is invited to be present.

#### Big Success Expected.

Guthrie, Ky., Sept. 19.—The various committees appointed at the mass meeting held several days ago, are all at work and everything points to a grand success for the free barbecue and basket dinner to be given here Saturday, September 23, by the citizens and farmers of Guthrie for the Dark Tobacco District Planters' Protective Association. Plans are being made to feed five or six thousand people.
